

Lunch & Learn 3

Financial Wellness in the Workplace

Wednesday August 10th, 2016; 11:30 am - 1:00 pm

Horicon area business owners and managers are invited to learn about providing stronger **Financial Wellness** for their employees. Learn about how a financially less-stressed employee is a more productive employee, and a better employee.

- Retirement Planning.
- Financial Budgeting.
- College Education.

These concerns are on your employee's minds all day and all night. Learn how providing tools to help them plan correctly will relieve the stress in their lives, so that they can focus on their work.

Our speaker will be Horicon's own Tony Pochowski, from Midwest Financial Group, Inc. Midwest Financial provides a values based planning approach to its clients. Focusing on real-life goals, rather than inundate you with industry jargon, they speak simply and honestly about the value that defines who you are.

Midwest Financial has graciously agreed to host the event and will provide a **free lunch** to attendees.

Event Details

August 10th, 11:30 am - 1:00 pm
